- Presentation no. 5: **The introduction of a new law on diabetes prevention in Romania** – *Romanian Federation of Diabetes Associations*
- **Q&A session with the audience**

# The centenary of insulin Twinning Programme

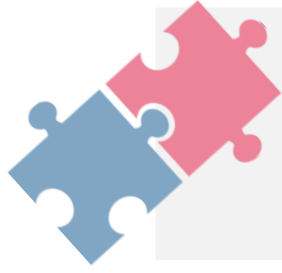

The project's overall objective is to strengthen the capacity of IDF Europe's member associations (MAs) in two areas, with a view to elevating the voice of people living with diabetes across Europe:

- **Strengthening MAs' operations** (e.g., fundraising, succession planning, strategic development etc.)
- **Strengthening MAs' key areas of activities** (education, awareness-raising, advocacy etc.)

A secondary objective is to **strengthen bonds within the diabetes community, nurture and expand the network of diabetes advocates.**

# Twinning Programme: formats

One-on-one collaborations

Series of webinars

Knowledge sharing sessions at the  
IDF Europe Regional Council

# Twining Programme: webinar series

## Format

Series of interactive webinars based on key topics of interest to our network of member associations.

The webinars will include:

- **Presentations** from four/five associations on initiatives/best practices on a selected topic
- **Q&A** session

The initiatives/best practices presented during the webinars will be translated into **case studies** to be shared widely within the entire network.

## Objective

Facilitating knowledge exchange and connections between IDF Europe member associations to help them maximise the impact of their activities at national and/or regional level.

## Topics

The topic of the first webinar will be **primary prevention of diabetes**. Other potential topics to be explored during the following webinars are:

- Secondary prevention (mid-October 2023)
- PwD engagement (beginning of December 2023)
- Diabetes education
- Advocacy on access to medicines/technologies
- Health systems re-organisation
- Membership development
